#### (I) Implementation of the 2021 Share Option Incentive Plan

1. On 26 March 2021, the Company held the 30th Meeting of the Seventh Board of Directors and the 16th Meeting of the Seventh Supervisory Committee, and reviewed and approved the 2021 Share Option Incentive Plan of Beijing Oriental Yuhong Waterproof Technology Co., Ltd. (Draft) (hereinafter referred to as the 2021 Share Option Incentive Plan) and its summary. The incentive instrument adopted in the incentive plan is share options, and the shares are ordinary Ashares offered by the Company to awardees. According to the plan, the Company intends to grant 52,004,500 share options to the awardees, and the underlying shares involved account for approximately 2.22% of the Company's total share capital (2,347,737,237 shares) as of the date of publication of the incentive plan draft. Each share option represents the right to purchase one ordinary A-share of the Company at the exercise price within the period of validity. The awardees

covered by this plan numbered 4,160, and the exercise price for the share options granted was RMB48.99 per share.

- 2. Between 27 March and 5 April 2021, the Company internally announced the names and positions of the awardees covered by the 2021 Share Option Incentive Plan in the internal office system. As of the expiration of the announcement period, no objections to the content announced were raised.
- 3. The Company held the Second Extraordinary General Meeting of Shareholders of 2021 on 12 April 2021 and deliberated on and approved the 2021 Share Option Incentive Plan and its summary, as well as Proposal on Requesting the Shareholders' Meeting to Authorize the Board of Directors to Handle Matters Related to the 2021 Share Option Incentive Plan. Therefore, the Board of Directors was authorized to determine the grant date for the Share Option Incentive Plan, grant share options to the awardees that meet the conditions, and go through all formalities for share option granting.
- 4. The Company held the 35th meeting of the Seventh Board of Directors and the 20th meeting of the Seventh Supervisory Committee on 26 April 2021 and reviewed and approved the Proposal on Adjusting the List of Incentive Recipients and the Number of Share Options to Be Granted of the 2021 Share Option Incentive Plan and Proposal on Granting Incentive Recipients the Share Options for 2021. Considering that the 24 confirmed awardees gave up 249,000 share options that the Company intended to grant because they failed to meet the incentive conditions due to their resignations or position changes, the Board of Directors adjusted the list of awardees and the number of share options to be granted. Concurrently, it determined that 51,755,500 share options would be granted on 26 April 2021 to 4,136 awardees.
- 5. The Company completed the registration of the share option granting on 14 May 2021. During the registration of the share option granting after the grant date was determined, 55 awardees gave up 580,000 share options because they failed to meet the incentive conditions due to their resignations or position changes. Hence, the Company granted 51,175,500 share options to 4,081 awardees. In accordance with the relevant requirements of the Accounting Standards for Business Enterprises, the implementation of a company's Share Option Incentive Plan will affect the company's financial position and operating results in the following few years. By calculation,

the anticipated total cost of the 51,175,500 share options granted to awardees as an incentive is RMB658,884,600, which is amortized over five years between 2021 and 2025 as follows:

Number of share options granted ('0,000 share options)	Total cost of the shares (RMB'0,000)	2021	2022 (RMB'0,000)	2023 (RMB'0,000)	2024 (RMB'0,000)	2025 (RMB'0,000)
5,117.55	65,888.46	21,203.00	22,934.09	13,338.68	6,803.85	1,608.83

Considering the principle of prudence in accounting, the circumstance where the granted share options will not be exercised is not considered for the aforesaid cost calculated and amortized. The amortized cost will be recognized in the recurring profits and losses, and accordingly, the Company's net profits in the current period will be reduced. The aforesaid final effect on the Company's financial position and operating results will be subject to the annual auditor's report issued by the accounting firm.

- 6. The Company held the 37th meeting of the Seventh Board of Directors and the 21st meeting of the Seventh Supervisory Committee on 1 June 2021 and reviewed and approved the Proposal on Adjusting the Exercise Price for the 2021 Share Option Incentive Plan. As is stipulated in the Company's 2020 final dividend plan, a cash dividend of RMB3.00 (tax-inclusive) per 10 shares will be distributed to all shareholders based on the total share capital of 2,523,561,412 shares as of the record date (28 May 2021) during the implementation of the distribution program. The Company will not distribute bonus shares or convert capital reserve to share capital. This dividend plan has been carried out on 31 May 2021. Considering that the equity distribution was implemented before the exercise of the 2021 Share Option Incentive Plan, by the latter, the exercise price shall be adjusted accordingly in case of dividend payout, capitalization from capital reserve, bonus share distribution, share subdivision, allotment, or stock reverse split-up. Therefore, the exercise price for the 2021 Share Option Incentive Plan was lowered from RMB48.99 per share option to RMB48.69 per share option.
- 7. The Company held the 48th meeting of the Seventh Board of Directors and the 27th meeting of the Seventh Supervisory Committee on 27 April 2022 and reviewed and approved the Proposal on the Achievement of Exercise Conditions of the First Exercise Schedule for the 2021 Share Option Incentive Plan and Proposal on the Retirement of Share Options Granted to Certain

Awardees But Unexercised under the 2021 Share Option Incentive Plan for Their Ineligibility to Exercise. In accordance with the requirements of the 2021 Share Option Incentive Plan, the Board of Directors believed that the awardees had achieved the exercise conditions of the first exercise schedule for the 2021 Share Option Incentive Plan, and agreed to complete the procedure of voluntary exercise for 3,294 awardees for the first exercise schedule. A total of 9,125,945 share options were exercised at RMB48.69 per share option. The exercise period of the first exercise schedule of the 2021 Share Option Incentive Plan started from 12 May 2022 to 25 April 2023, during which, 144,413 share options were exercised. Concurrently, in accordance with the requirements of the 2021 Share Option Incentive Plan, considering that some awardees resigned or failed to meet the conditions or fully meet the conditions of the personal performance appraisal for 2021, the Board of Directors, with the authorization of the Second Extraordinary General Meeting of Shareholders of 2021, decided that all or part of the 7,222,930 share options granted to but not exercised by the 1,737 awardees must not be exercised and shall be retired by the Company. The share option cancellation was completed on 9 May 2022. The share option cost is amortized over five years between 2021 and 2025 as follows:

Number of share options granted ('0,000 share options)	Total cost of the shares (RMB'0,000)	2021 (RMB'0,000)	2022 (RMB'0,000)	2023 (RMB'0,000)	2024 (RMB'0,000)	2025 (RMB'0,000)
4,395.26	57,203.46	17,517.63	19,949.13	12,103.22	6,173.66	1,459.82

Considering the principle of prudence in accounting, the circumstance where the granted share options will not be exercised is not considered for the aforesaid cost calculated and amortized. The amortized cost will be recognized in the recurring profits and losses, and accordingly, the Company's net profits in the current period will be reduced. The aforesaid final effect on the Company's financial position and operating results will be subject to the annual auditor's report issued by the accounting firm.

8. The Company held the 51st meeting of the Seventh Board of Directors and the 28th meeting of the Seventh Supervisory Committee on 23 May 2022 and reviewed and approved the Proposal on Adjusting the Exercise Price for the 2021 Share Option Incentive Plan. As is

stipulated in the Company's 2021 final dividend plan, a cash dividend of RMB3.00 (tax-inclusive) per 10 shares will be distributed to all shareholders based on the total share capital of 2,508,378,631 shares, a difference in the total share capital of 2,519,627,295 shares as of the record date (30 May 2022) during the implementation of the distribution program minus the 11,248,664 shares bought back in the Company's buyback account. The Company will not distribute bonus shares or convert capital reserve to share capital. In accordance with the requirements of the 2021 Share Option Incentive Plan, the exercise price shall be adjusted accordingly in case of dividend payout, capitalization from capital reserve, bonus share distribution, share subdivision, allotment, or stock reverse split-up before the exercise. Therefore, the exercise price for the 2021 Share Option Incentive Plan was lowered from RMB48.69 per share option to RMB48.39 per share option.

9. The Company held the Seventh meeting of the Eighth Board of Directors and the Fifth meeting of the Eighth Supervisory Committee on 25 April 2023 and reviewed and approved the Proposal on the Retirement of Share Options Granted to Certain Awardees But Unexercised under the 2021 Share Option Incentive Plan for Their Ineligibility to Exercise. In accordance with the requirements of the Methods for the Administration of Equity Incentives of Listed Companies and the 2021 Share Option Incentive Plan, considering that the first exercise period of the Company's 2021 Share Option Incentive Plan started from 12 May 2022 to 25 April 2023, as of the expiration of the first exercise period, 8,013,782 share options held by 2,860 awardees had not been exercised, so they were retired by the Company. Among the awardees, 518 resigned, so they could not exercise all the 5,354,875 share options they had been granted. Hence, the shares were retired by the Company. As the exercise conditions for the second exercise schedule of the 2021 Share Option Incentive Plan were not met in terms of the corporate performance appraisal for 2022, the 10,146,500 share options held by 3,161 awardees to be exercised on the second exercise schedule could not be exercised and were retired by the Company. Therefore, the Board of Directors, with the authorization of the Second Extraordinary General Meeting of Shareholders of 2021, decided that all or part of the 23,515,157 share options granted to but not exercised by the aforesaid awardees must not be exercised and shall be retired by the Company. The share option

cancellation was completed on 5 June 2023. The share option cost is amortized over five years between 2021 and 2025 as follows:

Number of share options granted ('0,000 share options)	Total cost of the shares (RMB'0,000)	2021 (RMB'0,000)	2022 (RMB'0,000)	2023 (RMB'0,000)	2024 (RMB'0,000)	2025 (RMB'0,000)
2,043.74	29,575.04	5,788.37	8,582.42	8,532.36	5,395.97	1,275.92

Considering the principle of prudence in accounting, the circumstance where the granted share options will not be exercised is not considered for the aforesaid cost calculated and amortized. The amortized cost will be recognized in the recurring profits and losses, and accordingly, the Company's net profits in the current period will be reduced. The aforesaid final effect on the Company's financial position and operating results will be subject to the annual auditor's report issued by the accounting firm.

10. The Company held the 8th meeting of the Eighth Board of Directors and the 6th meeting of the Eighth Supervisory Committee on 6 June 2023 and reviewed and approved the Proposal on Adjusting the Exercise Price for the 2021 Share Option Incentive Plan.
